8-Smart City Project XION (Weather Monitoring System, Smart Street light , Water Management System , Smart Parking System , Smart Health Care , Earthquake detection system , Tsunami detected system, Smart Air Quality & Fire Detection System ,Smart Irrigation System , Smart Traffic System , Smart Energy System , Smart Home Automation System ,Security System )

## **Courses and Certificates:**

- Cybersecurity Challenges and Prospects. KKU, Abha Palace Hotel, 14 NOV 2018.
  - Hemma Bootcamp for IOT, By Saudi Digital Academy (SDA), 14 weeks, 23 may 2021 – 2 Sep 2021 "
  - Training for 6 months by Taqat for cloud computing 5 Sep 2021 – 4 March 2022
  - Google Developer Day: IOT, Flutter, ML, Abha Literary Club.
  - Microsoft Azure IOT developer Certificate.
  - Webinar experiences in learning programming , KKU .
  - Applied machine learning with python , KKU.
  - Arduino & Elctric Circuits online building , KKU.
  - IOT application with VOIP, KKU, Computer science college.
  - Machine learning application, KKU, Computer science college.
  - IOT penetration testing, KKU, Computer science college.
  - Sharpen your Cybersecurity Skills with Crowdstrike , Cyberhub, online.
  - Programming course by using MySQL and PHP, by FlexCourses , 6-9 weeks.

## **Technical qualifications:**

- Node-RED
- Microsoft Office
- Xampp , PHP and MySQL
- Java
- Python
- AWS services
- Kali Linux
- Arduino
- Raspberry Pi
- MS
- Microsoft Azure IOT developing

**Personal skills:**

- Commitment and responsibility.
- Time management.
- Critical thinking and analysis.
- Problem solving.
- Work under pressure.
- Leadership.
- Worked at 18 members team

**Language:**

- English - Advanced.
- Arabic – Fluent.
- Turkish – Beginner.
